## WORK EXPERIENCE

### Teaching Assistant and Research Assistant

📍 CDMX

During the master I start to work with a SNI researcher in his investigation, helping with data analysis and developing machine learning algorithms for social programs evaluation. Meanwhile I'm teaching the "Introduction to Data Science" laboratory.

### Supply Chain Director Mexico

📍 CDMX

At Studio Ceri

When Studio Ceri decided to expand its business in México by buying an 28000 m<sup>2</sup> warehouse, I was in charge of coordinating the whole supply chain and developing the necessary IT infrastructure. My role was Mexico Supply Chain Director, supervising purchasing, national logistic and warehouse division.

### Project Manager

📍 México

At Studio Ceri

Studio Ceri is an Italian leader in interior design. My first task was to verify the correct implementation of the several projects the firm had at the time and to solve the potential issues on site. I was in charge of a team ranging from 30 to 70 persons with different backgrounds and skill set. This work helped me to get used to work under pressure, to meet challenging deadlines and to develop leadership and managing skills.

### Junior Consultant

📍 Milan

At Accenture

I joined a team working on a Fincantieri's project. My main task was to develop a forecasting tool to make more accurate calculation of the costs and of material consumption in the making of a new cruise. I found this experience extremely stimulating, especially because of the very challenging and competitive environment.

### Warehouse Manager

📍 Milan

At Chiuso per Ferie

I began as a customer assistant in a wearing apparel shop in Milan. After six month I started to manage the small warehouse and the purchase orders for Filastrocca's personal apparel label. This work allowed me to pay my university tuition jointly with the scholarship.

## EDUCATION

### Master of Science in Economics

📍 CDMX

At CIDE (Centro de Investigación Docencia Económica)

### Master of Science in Supply Chain Management

📍 Milan

At Politecnico di Milano Final Grade  
109/110

### Bachelor in Management and Production Engineering

📍 Milan

At Politecnico di Milano Final grade:  
104/110
